PALM & COCONUT SUGAR PRODUCTS CATALOG

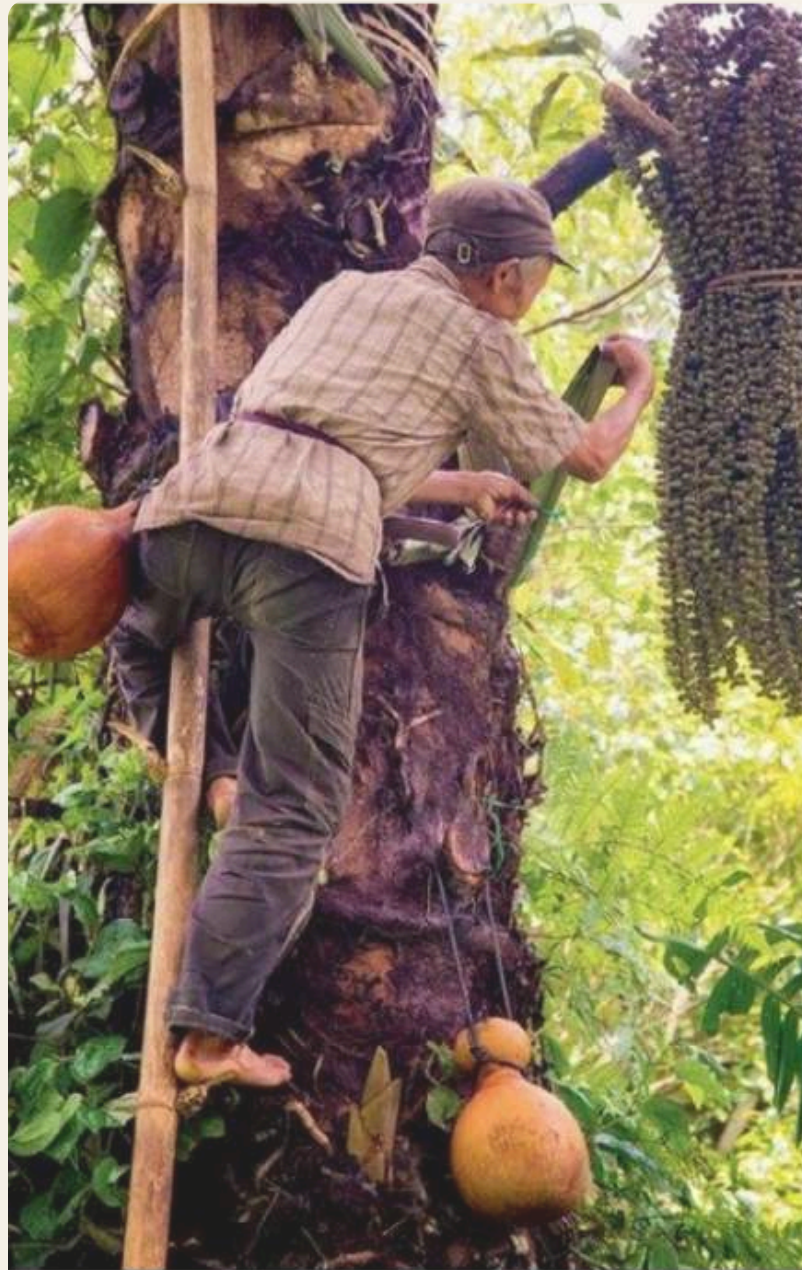

ABOUT PALM & COCONUT SUGAR

A Natural Sweetener from Indonesia

Palm sugar and coconut sugar are natural sweeteners made from the sap of arenga palm and coconut palm trees. Both are widely used in the food and beverage industry for their rich caramel flavor and natural sweetness.

Compared to refined sugar, they are less processed and are a popular choice for consumers seeking more natural sweetening options.

At Nusantara Agro Export, we work with trusted Indonesian suppliers to provide high-quality palm sugar and coconut sugar products for international markets.
